

WCOWMA members:

- As a member you will receive 20% off our already low prices
- We are the only lab to offer a soil texture triangle graph on reports, for easier understanding of your results

- We are pleased to be a lab of choice for many members by specializing in:
  - Texture tests by hydrometer method
  - Sand analysis by sieve—all 5 size categories
  - Saturation tests to determine suitability of clay soils
  - Water tests
  - And many other application tests

Please use the attached Chain of Custody form to send your samples in.

We do septic field evaluations and designs, just like you, so we know the importance of having results done right and on time. We are excited to work with you as you grow your business.
